TWO OPEN POSTDOCTORAL POSITIONS COMING SOON

Organic Synthesis & Materials Characterization

LIQUID CRYSTALS

Join the **Liquid Crystals and Polymers Group (CLiP)** at the **Instituto de Nanociencia y Materiales de Aragón (INMA)**, a Severo Ochoa Centre of Excellence, and contribute to an exciting public-private collaborative research project focused on the development of novel liquid-crystalline materials

We are looking for **two highly motivated postdoctoral researchers** with experience in organic synthesis and materials characterization, interested in working in a highly multidisciplinary research environment.

POSITION DETAILS

- **Number of positions:** 2
- **Contract duration:** Up to 2.5 years, depending on the starting date.
- **Location:** Zaragoza, Spain.
- **Starting date:** Expected January-February 2027.

REQUIREMENTS

- PhD in Chemistry, Materials Science or a closely related discipline.
- Proven experience in **organic synthesis**.
- Experience in the **structural and optical characterization** of materials.
- Strong motivation and ability to work independently.
- Good communication and teamwork skills.
- Enthusiasm for working in a highly multidisciplinary research environment.
- *Experience in the processing and physical characterization of liquid crystals, as well as in AI-assisted molecular design and predictive modelling, will be considered an asset*.

WHY JOIN US?

- Participate in an innovative public-private collaborative research project.
- Access to advanced research facilities and characterization techniques.
- Work in a highly multidisciplinary and collaborative environment.
- Develop your scientific career at the interface of organic synthesis and functional materials.

GET IN TOUCH!

We anticipate opening two postdoctoral positions in early 2027. The official calls for applications will be published in due course, including detailed information about the application procedure and deadlines. If you are interested in these opportunities, we encourage you to contact us **in advance by sending your CV and a brief introduction of your research experience and interests**.
